## The Mystery of Intimate Relationship

With Dr. Moti Peleg and Ronit Rinat Peleg

The practice of Flesh and Spirit opens us up to the powerful connection between body and soul . The committed intimate relationship calls us to transcend the personal self and to embrace the other. In this workshop we will lead a small circle of couples along a path emphasizing deep communication as well as exploring the role of the sexual and the spiritual in the life of the couple.

We will introduce the council process for couples, where attentive listening and authentic speaking combine with the aim of transforming the relationship.

Our goal is to create a circle of lovers that supports each couple. In men's , women's and mixed circles we will witness council, share dreams and explore energetic awareness.

We embrace the spiritual dimension of the relationship through the introduction of the "Third", which provides a voice for the relationship in the couple's council.

**Flesh and Spirit** affirms the inseparability of the sexual and the spiritual in mature intimate relationships. We believe this to be true for any religion, any marital status, and any sexual orientation.

Dr. Peleg, a psychologist in private practice for over 30 years and wife Ronit Rinat Peleg, founder and national director of council in Israel - where she facilitates, trains and mentors council practice - owe their deepening relationship to the practice of council and Flesh and Spirit.

Both have studied the Flesh and Spirit process and trained under the direction of Dr. Jack Zimmerman and Dr. Jaquelyn McCandless.

Ronit and Moti Peleg's intimate bond is a unique combination of love and destiny that was highlighted on the Oprah Winfrey show last fall under the heading, "The Greatest Love Story We've Ever Told"
